RHYTHMIC SKATING

This new entertaining event requires the use of one hand-held prop listed below. The program should contain elements that employ the use of the prop throughout the routine. The skater must maintain control of the prop at all times. Props of the same kind (i.e. Ball / Hoop / Ribbon) must be grouped together and cannot be combined for competition event groups.

The skater chooses only one rhythmic prop per routine (ball, hoop or ribbon) and must maintain control of the prop at all times throughout the program. This means the prop must be used by the skater throughout the routine. It can be thrown, bounced or juggled but control should be maintained. The prop should not be put down on the ice while the skater does jumps & spins. No additional props are permitted.

Props are not allowed on the event warm-up. If it is obvious that skater's prop does not meet the following specifications, the panel Referee can determine if any point deduction should be taken.

Choice of One:

- 1. Hoop** - Must be made from wood or plastic (from a rigid, non-bending material). The hoop diameter should measure between 2 feet 7 inches - 2 feet 11 inches. The hoop can have colored tap or fabric to match or contrast the skater's costume, but it cannot have any other decoration (i.e. fringe, lights, etc.) on the prop.
- 2. Ball** - Must be made of rubber or plastic. The ball diameter should measure approximately 7-3/4 inches.
- 3. Ribbon** - Stick must be made of wood, plastic or fiberglass. Stick length should be between 20-30 inches. Ribbon material must be one single piece of satin or a non-starched fabric. Ribbon width should be 2-4 inches wide and between 6 feet - 9 feet long - proportional to the size and ability level of the skater.
